

What is Time for Change (T4C)?

T4C is an initiative dedicated to male and female young adults, adults and their families who are impacted by gang involvement. T4C understands the events and factors that bring individuals into gangs and keep them involved in a gang-related lifestyle. T4C provides gender-responsive supports and services because these events and factors may be different for males and females.

What do we offer?

Utilizing an intensive case work model, T4C provides support and services based on the needs of each individual and their family.
